01 | STAFF TOOLS

Make direction clear.

CLEAR Communication Elements (CCEs)

Six questions help everyone understand the work, the reason, and the next step.

01	**What is changing or being asked** Who must do what, and by when?
02	**Why / Why it is changing** Explain the reason the work or change is needed.
03	**Who owns it and who decides** Name the person doing the work and the person who may decide.
04	**What is not changing** State which duties, rules, deadlines, or approvals stay in place.
05	**What to do if it is unclear, and when you will hear back** Name the contact route and when to expect a reply or update.
06	**Where this lives (whenever applicable)** Point to the correct form, policy, guide, or other source when one applies.

For all staff

Use these questions to understand direction and identify missing information. Leaders use CCEs 1–5 in covered written direction and include CCE 6 whenever a source applies.

Training basis: Communicating CLEAR, final series, slides 11–19 and 37–41.
